

KANSAS ASSISTIVE
TECHNOLOGY COOPERATIVE

News From KATCO

Allow me to introduce you to KATCO, the Kansas Assistive Technology Cooperative. If you recognize the name, it's likely you already know that KATCO provides financing for the purchase of Durable Medical Equipment and Assistive Technology devices and services.

KATCO has financed well over 3.5 million dollars in assistive technology used by more than 465 Kansans with disabilities or significant health problems. Equipment financed includes: scooters, modified vehicles, hearing aids, power chairs, Braille readers, computers and adaptive peripherals, and even home modifications for internal and external needs.

"How Do We Do What We Do?"

- We understand the financial problems that a health impairment or disability causes.
- We approach credit history and credit problems differently than banks.
- We work to coordinate external financing to reduce the cost of the equipment to the buyer.
- We provide flexible financing terms.

Examples of Financial Resources & Partners
